

SOLE VENDOR

Math Collections Grades 4-6

Introducing Math through Literature to students encourages greater insights in mathematics as they **deepen their understanding of concepts** and **strengthening their abilities to solve problems**. These books use statistics, geometry, number sense, and measurement linked with creative storylines to teach reading strategies as well as mathematics.

One copy each of the following:

- 7 x 9 = Trouble*
- Cheetah Math*
- Gigantic! How Big Were the Dinosaurs?*
- Mummy Math: An Adventure in Patterning*
- Tiger Math*
- Great Estimations*
- Chimp Math*
- Polar Bear Math*
- The Number Devil*
- Panda Math*
- Patterns in Peru*

Perfect for Math Book of the Month!
