## SPANISH CONTENT CLASSROOM LIBRARIES

**Research supports content learning through native language instruction.**

[www.attanasio-edu.com](http://www.attanasio-edu.com)

NYC (718) 416-1832 • Outside NYC (877) 416-1833

Dear Educator,

Through native language instruction, students are able to acquire concepts, ask questions, express themselves in both oral and written language, and communicate their needs. We are pleased to offer you a complete curriculum-based Spanish Content Classroom Library that will provide:

- a wealth of **relevant informational** texts
- **engaging literature in content** areas.

Attanasio and Associates has carefully compiled Spanish content Libraries from kindergarten through grade eight. These libraries are **aligned** to the **New York State Standards in social studies, science, and mathematics**.

According to recent research by Burns, Griffin, & Snow,

"Despite various controversies, considerable evidence suggests that limited or non-English-speaking language learners are generally more likely to become better readers of English when they receive initial instruction in their native language." Burns, M. S., Griffin, P. & Snow, C. E. (Eds.). (1999). *Starting Out Right: A Guide to Promoting Children's Reading Success*.

All of our libraries contain books on the **physical, life and earth sciences**. These books are **beautifully illustrated** and provide **strong picture support** to the text. The social studies titles were carefully chosen to reflect the curriculum of that particular grade. We have also included books that support content instruction through **fables, historical fiction, biography, poems, and other genre**. Our books **encourage interactive read-alouds, independent reading, and group research**.

Sincerely,

Connie J. Attanasio  
President, CEO

**P.S. Research supports content learning through native language instruction.**

## KINDERGARTEN

A LAVARSE LAS MANOS  
*Life Science*

AMIGOS EN LA ESCUELA  
*Social Studies*

CLASES DE ROPA
